C-STEM®

Concentrated Anti-Aging Serum

C-Stem® is an exceptional rejuvenating Vitamin C serum that contains Lilac Stem Cells. C-Stem® combats signs of visible skin aging, diminishes the appearance of nose to mouth creases, and brightens skin tone. The formula reactivates 14 genes that are responsible for the production of collagen, elastin, and hyaluronic acid, and helps to reduce the accelerated aging protein Progerin.

C-STEM[®] – A COMPARISON

	Heath Skin Cosmeceuticals C-Stem[®] Serum	SkinCeuticals CE Ferulic ^{®*}	Obagi-C ^{®**} C-Clarifying Serum	SkinMedica TNS Recovery Complex ^{***}
